*"Anyway, the virtual reality experience was a huge success for Sierra Pacific Power Company (almost 8,000 customers visited our booth)! Our biggest turn out ever! I am looking forward to our next event."*

Susan A Calitri  
Market Planner  
Sierra Pacific Power Company

*"For two years you provided cutting edge technology to our show visitors in the form of the NYIAS virtual Reality Theater. You and your staff were very professional and your services were everything you promised"*

Candida Romanelli  
Show Director  
New York International Automobile Show

*"The driving simulators we rented from you proved to be a great draw. The results from the trade show indicated that, in spite of the show's attendance being down 17%, our leads increased by 32%. After removing the "Ride Only." scans! In an attendance neutral comparison, this is represents a 58% increase in NET leads! By using your services to "cast a bigger net" initial results indicate that we were able to catch more high-quality leads as well*

Jason Covington
